## ❑ ROAD TRANSPORTATION

Transportation is the backbone of any Supply Chain. Therefore, we consider Transportation as one of our most important service solutions in our cluster of services to simplify our client's supply chain. We provide transportation services for hazardous and non-hazardous chemicals, edible oil, POL products, LPG, butadiene, containers, agro products, metals, minerals, project cargo, etc. We take complete responsibility for the cargo irrespective of its form and type (hazardous or non-hazardous) including pickup, handling, storage and distribution in such a way that all processes are inter-connected, which saves time and money. Our expertise service is ensure safety of vehicles along with the goods, on time and complete consignment delivery to any part of the country.

We offer industry leading solutions for demand planning/inventory management that helps eliminate run outs, determining when and where product is needed and scheduling delivery with our resources of heavy commercial vehicles. We also provide customized and most efficient services in multi-modal and coastal transportation to offer reliable, economical, safe and agile transportation solutions for our clients.

## ❑ PRIVATE / BONDED WAREHOUSING

Like Transportation, warehousing too is a critical component in the supply chain management. Cargo movement is dependent on the next-in-line chain requirement. To meet the temporary storage requirement, Strategically located warehouses equipped with advanced facilities underscore our commitment to safe and secure storage. These warehouses, besides providing cost effective transit-storage can also be utilized for value added services such as consolidation, de-consolidation, packaging and container stuffing. In addition, we also facilitate the process of re-distribution to the final destination, based on customer needs in terms of distribution locations and urgency of requirement.

The selection of warehousing associates is based on stringent selection criteria to ensure protection of goods from loss, pilferage, shortage, theft and damage. Space optimization, In-store movement optimization and configurable load setting are our special functions. To enhance security, our selected warehouses are equipped with electronic theft and fire alarms, complemented by 24\*7 security personnel. We prioritize the safety of stored goods, allowing them to be housed in our facilities for as long as required.
